Beginning at 1 p.m.
CALIFORNIA ENERGY COMMISSION
1516 Ninth Street
First Floor, Hearing Room A
Sacramento, California
(Wheelchair Accessible)

Remote Attendance and Availability of Documents

Internet Webcast - Presentations and audio from the meeting will be broadcast via our WebEx web meeting service. For details on how to participate via WebEx, please see the "Remote Attendance" section toward the end of this notice.

Purpose

This hearing is to receive public comments on the Committee's assessments of California's transition to a clean energy economy and the contribution of American Recovery and Reinvestment Act of 2009 (ARRA) funding to that transition in the Committee Draft *2010 IEPR Update*. After considering all oral and written comments, the Committee will release a Committee Final *2010 IEPR Update* that will be considered for adoption by the Energy Commission at its December 29, 2010, business meeting.

The Committee Draft *2010 IEPR Update* is available on the Energy Commission's website at [www.energy.ca.gov/2010_energypolicy/documents/index.html].

Background

Senate Bill 1389 (Bowen and Sher, Chapter 568, Statutes of 2002) requires the Energy Commission to "conduct assessments and forecasts of all aspects of energy industry supply, production, transportation, delivery and distribution, demand, and prices. The Energy Commission shall use these assessments and forecasts to develop energy policies that conserve resources, protect the environment, ensure energy reliability, enhance the state's economy, and protect public health and safety." (Public Resources Code § 25301[a]). This assessment and associated policy recommendations are reported and adopted every two years. Additionally, the bill requires the Energy Commission to prepare an update in alternate years to provide a progress report on issues raised in the biennial IEPR or to identify new issues that have arisen during the intervening year. The *2010 IEPR Update* has been prepared in response to this requirement.

The IEPR Committee issued its Scoping Order on April 14, 2010, identifying the areas to be covered in the report. From June to September 2010, a total of six public workshops were conducted on several ARRA programs administered by the Energy Commission including other ARRA-related efforts to discuss and evaluate how these projects would create economic benefits and new jobs, reduce California's dependence on imported energy, and increase California's competitiveness in national and international energy markets. Workshop documents, as well as stakeholder comments and workshop transcripts, are available at [www.energy.ca.gov/2010_energypolicy/documents/index.html].

Written Comments

The IEPR Committee will take comments on the Committee Draft *2010 IEPR Update* at the hearing and requests parties to submit comments in writing by 5 p.m. on November 8, 2010. Please include the docket number 10-IEP-1A and indicate "Draft 2010 IEPR Update" in the subject line or first paragraph of your comments. Please hand deliver or mail an original to:
